I am writing to urge the FCC to dismiss NAB's petition 04-160. I have enjoyed XM satellite radio for some time. Satellite radio is truly a valuable service and should not be limited in any way, especially at the request of its competition. I gladly pay a quarterly fee for this excellent service and am disappointed that the federal government may curtail what I choose to listen to. This petition is an attempt to interfere with the growth of a superb alternative to AM/FM radio. Please do not let this happen.
